Appl. No. 09/661,702 Filed: September 14, 2000 Atty. Docket No. 61311008

Page 2 of 6

IN THE CLAIMS:

Please substitute the following amended claims:

1. (original) An anti-icing composition comprising an aqueous solution of monohydroxy and/ or polyhydroxy alcohols thickened with a combination of an acrylic emulsion polymer and a water-swellable, colloid-forming clay mineral.

2. (original) The composition of claim 1 further comprising at least 1 weight percent glycerine.

3. (original) The composition of claim 1 for use in all types of locks.

4. (original) The composition of claim 1, for use in or on moving mechanisms, further comprising Teflon powder as an added ingredient.

5. (original) The composition of claim 1, for use in or on moving mechanisms, comprising graphite as an added ingredient.

6. (original) The composition of claim 1, for use in windshield washer reservoirs of trucks or automobiles.

7. (original) The composition of claim 6, comprising non-toxic freezing point depressants.

8. (cancelled)

9. (cancelled)

10. (cancelled)

11. (cancelled)

12. (cancelled)

13. (currently amended) An anti-icing composition

comprising an aqueous solution of fully hydrolyzed polyvinyl
alcohol, with one polyol or a combination of polyols added to
comprise at least 30 weight percent of the total composition.

14. (original) The composition of claim 13 wherein
said polyol or one of said combination of polyols comprises
glycerine.

15. (original) The composition of claim 13, wherein
said aqueous solution of polyvinyl alcohol and said polyol or
combination of polyols are mixed together within a few hours
of application.

16. (currently amended) An anti-icing composition
comprising an aqueous solution of polyvinyl alcohol, with one
polyol or a combination of polyols added to comprise at least
30 weight percent of the total composition, wherein said
aqueous solution of polyvinyl alcohol and said polyol or
combination of polyols are mixed together within a few hours
of application ~~The composition of claim 15, and wherein said~~
aqueous solution of polyvinyl alcohol comprises the added
ingredient of hydrogen peroxide, and said polyol or
